NO JAPANESE PREJUDICE AGAINST WHITE FARM LABOR

According to figures issued at San Francisco by the Japanese Agriculural association, Japanese firm la bor in this state is paid from \$4.5 to \$5 a day, white white facin labor received but \$3.50 to 34 a day to the same sort of work.

"This is one reason ways the to sociation, "why Japanese farmers especially rice farmers, prefer white help to Japanese"

So it would appear that in the good time coming, when all the best nember in statifornia, shall have prove into Japanese ownership, there may he ample opportunity for cheap white coolie labor to obtain work in the country.

It is also gratifying to learn that the Japanese landfords are not preof the editor of the Bee in proof of judiced against white labor, even preferring it to that of their own countrymen because of its greater torbility.

What the attitude of white farm Father Guerin took occasion to players is not stated by the associate Amador property he admitted pon his ability correctly to inter- or no difference so far as employ- great possibilities. Reeso Bive-
